STAFF REPORTS:

Mr. Praga reported that site plans for Phase 2 of Montgomery Park, consisting of a 42-unit senior living facility, as well as for the Montgomery County Justice Center, were approved by RVB pending the sewerage facilities planning response from PaDEP.

Mr. Praga noted that there are no change or updates for the proposed projects involving 1529 Dekalb Street, 221 West Main Street, and the Norristown Centre.

Mr. Praga stated that sewer bypass in connection with the bridge replacement for the Markley Street Section 510 project should begin shortly with sewer reconstruction starting in May. He added that Section 530 may now be incorporated into Section 510 rather than being bid as a separate project.

Mr. Praga indicated that there has been no response to the Professional Services Agreement submitted to the developer for the proposed project at 200 East Logan Street.

Mr. Fox noted that a Job Conference was held for Contract Nos. MG-1 since the general contractor is behind schedule for the construction of the Maintenance Garage and that HRG approved Payment No. 2 for Contract MG-2 in the total amount of \$3,060.00.

Mr. Fox, in conjunction with Mr. Larson and Mr. Thompson, made a presentation to the NMWA Board, which discussed the transition from the GESA (Guaranteed Energy Savings Act) approach to the current project, explained the components of the proposed sewer plant upgrade, and set forth the schedule for the project. Mr. Fox stated that the project will be advertised for public bids on February 13th with the intent of awarding the construction contracts at the April 8th Authority meeting. He indicated that the project should be substantially complete by May 2021. Mr. Larson added that the Authority will pre-purchase the belt filter press through the state's COSTARS program to ensure that the desired equipment is utilized at the most cost-effective price. Finally, Mr. Thompson pointed out that discussions regarding financing the project have been initiated with the Fulton Bank with a settlement date tentatively set for the latter part of April.

Mr. Thompson reported that the accounts receivable increased for the month of January due to a reduction in collections and that the financial operations showed a surplus of \$66,616 for January primarily as a result of the receipt of the quarterly reimbursement from West Norriton Township. He noted that the operating disbursements for the month of February, which totaled \$165,303.54, continued to be slightly over budget because of the upfront payment of the insurance premium and an increase in the sludge disposal costs while the capital expenditures amounted to \$21,581.75 and covered payments to HRG for engineering and Seiler Drury for architectural work, both associated with the sewer plant upgrade, and the electrical contractor in connection with construction of the Maintenance Garage. Finally, Mr. Thompson stated that the transfer of \$900,000 from the Operating Reserve Fund to the Capital Fund, as discussed at the January meeting, was processed.
