Sonya Sanders

Also in attendance:

APPROVAL OF MINUTES:

The approval of the Minutes of the December 8, 2021 Authority Meeting was tabled due to a lack of a quorum present who attended the December Authority meeting.

On a motion by Mr. Simpson, seconded by Mr. Burke, the NMWA Board approved the Minutes of the January 12, 2022 Authority Meeting. Ms. Sanders abstained since she did not attend the meeting.

STAFF REPORTS:

Mr. Nester commented that staff reports were distributed to the NMWA Board along with other meeting documents. He asked if anyone had a question regarding the staff reports. There were none.

Mr. Cehula stated that the accounts receivable for January remained essentially unchanged from the previous month. She added that the office continues to focus on delinquent landlords and utilize water shut-offs on a selected basis. Finally, she indicated that the Authority is working with the County in connection with LIHWAP (Low Income Household Water Assistance Program) which was implemented by the state to provide assistance to low-income families with paying overdue water and sewer bills. Mr. Thompson reported that the cash statement for January showed a surplus of \$104,671 due to the receipt of the quarterly reimbursement from West Norriton Township and that the overall expenses are below the budget level without the flood expenses being considered.

Alex Barr from HRG presented a slideshow summarizing the results of the recently completed Capacity Study. He noted the number of equivalent dwelling units (EDUs) that the sewer system should be able to handle based on pipe sizing and other factors for the four (4) potential developments in question, namely the State Hospital, Riverfront, Kennedy-Kenrick property, and the vacant site at DeKalb and Main Streets. Mr. Barr indicated that approximately 340 feet of pipe could be replaced in the system in order to serve a full build-out of the State Hospital grounds. Mr. Larson commented that the Authority is currently working with HRG on a grant application to the State to help fund such an undertaking. Mr. Barr concluded that based on the results of the study, the capacity of the pipes serving these potential development sites is more than adequate although additional investigation should be considered to determine the actual condition of the pipes.

OLD BUSINESS:

NEW BUSINESS:

Mr. Rudolph explained the need for Resolution No. 2022-01 that was distributed previously in a separate email. He indicated that bids on the sludge related contracts will not be received until February 16, 2021 and must be awarded by the end of the month, thus requiring action by an authorized representative of the Authority prior to the March Authority meeting. Mr. Rudolph stated that the Resolution designates the Executive Director to fulfill that role after the contracts have been reviewed by the Solicitor.

On a motion by Mr. Burke., seconded by Mr. Simpson, the NMWA Board unanimously approved Resolution No. 2022-01 authorizing the Executive Director to act on behalf of the Authority on a matter related to the sludge disposal contracts.

On a motion by Mr. Simpson, seconded by Ms. Sanders, the NMWA Board approved the Minutes of the February 9, 2022 Authority Meeting. Ms. Lawrence abstained since she did not attend the meeting.

STAFF REPORTS:

Mr. Nester commented that staff reports were distributed to the NMWA Board along with other meeting documents. He asked if anyone had a question regarding the staff reports. There were none.

Mr. Thompson reported that the accounts receivable for February increased by approximately \$17,000 but he noted that February is a short month for collections. He added that the office continues to focus on delinquent landlords and utilize water shut-offs on a selected basis and as a result received a large payment from a landlord. Mr. Thompson stated that the expenses to date are below budget if flood related expenditures are excluded from the analysis. Finally, he indicated that the cash statement for February showed a deficit of \$81,954 due to several factors, including lower collections.

OLD BUSINESS:

None.

NEW BUSINESS:

Mr. Thompson reminded the NMWA Board that at the February meeting Resolution No. 2022-01 was approved authorizing the Executive Director to award three (3) waste hauling contracts to the lowest responsible, responsive bidders, as determined by the Solicitor. Mr. Thompson noted that he sent the supporting information to the NMWA Board before awarding the following contracts:

Contract No. 1 – Municipal Waste Hauling and Disposal – Waste Management

Contract No. 2 – Grit/Screening Waste Hauling and Disposal – J P Mascaro

Contract No. 3 – Biosolids Waste Hauling and Disposal – J P Mascaro

Mr. Thompson stated that Resolution No. 2022-02, which was distributed previously to the NMWA Board, is intended to ratify these awards.

On a motion by Mr. Simpson, seconded by Ms. Sanders, the NMWA Board unanimously approved Resolution No. 2022-02 ratifying the awards of the waste hauling and disposal contracts.

Mr. Thompson reminded the NMWA Board that at the February meeting a representative from HRG presented the Capacity Study and explained that certain capital improvements would increase the capacity of the sewer system to serve the potential development at the State Hospital. At that same meeting Mr. Thompson informed the NMWA Board that HRG was instructed to prepare an application for State funding to pursue these capital improvements. Mr. Thompson then stated that one of the requirements of the grant application process was a Resolution from the Authority indicating its intent to apply for the assistance and that Resolution No. 2022-03, which was previously distributed to the NMWA Board, is intended to satisfy this requirement.

On a motion by Ms. Lawrence, seconded by Ms. Sanders, the NMWA Board unanimously approved Resolution No. 2022-03 requesting a PA Small Water and Sewer Program Grant for certain sanitary sewer improvements.

Mr. Nester and Ms. Sanders summarized a joint meeting that they and Mr. Thompson attended with the President and Vice President of the Municipal Council and the Municipal Administrator. They described the meeting as positive and stated that: (1) both parties agreed to work together in conjunction with the Sewer Evaluation Study to be undertaken by the Municipality; (2) the Authority discussed the changes it was proposing to the Intergovernmental Agreement (“Agreement”) between both parties to enable the Sewer Evaluation Study to proceed; and (3) both parties acknowledged the need for an introductory group meeting as well as periodic appearances of Authority representatives at Municipal Council sessions to provide updates on the sewer system and its operations.

Mr. Thompson reviewed the revisions proposed by staff to the Agreement and the reasoning behind the revisions. It should be noted that the revisions were shared with the NMWA Board in an email the previous week. He added as a follow up to the joint meeting that the Municipal Administrator was setting aside the first Council meeting in June, September and December for Authority representatives to make a presentation and was working on dates for a social gathering of the two boards in April.

Mr. Rudolph indicated that he had a conversation with the Municipal Solicitor, who reported that the Municipality would seriously consider the proposed changes to the Agreement. Mr. Rudolph recommended that if the NMWA Board had no objections to the proposed changes, it should adopt a Resolution supporting the revised Agreement and authorize the Chairperson to sign the document. Mr. Rudolph stated that he had prepared Resolution No. 2022-04 for this purpose and brought the Resolution with him. The Resolution was displayed on the monitor in the Authority meeting room for all members to read.

On a motion by Mr. Simpson, seconded by Ms. Sanders, the NMWA Board unanimously approved Resolution No. 2022-04 approving the Intergovernmental Agreement between the Municipality of Norristown and the Norristown Municipal Waste Authority.

PRESENTATION OF AUDITORS:

Ms. Anastasia Devlin of Bee Bergvall & Co. attended virtually and discussed the audited financial statements for 2021, which had been previously distributed to the NMWA Board members. Ms. Devlin stated that there was support for all items selected for testing and the financial statements were free from material error. She shared a presentation that compared the revenues, expenses, and net operating income for the last five years and noted that the revenues decreased in 2020 primarily as a result of the pandemic but that it was offset by a reduction in expenses. She expressed a concern with the increase in the accounts receivables, acknowledging that this was related to the pandemic and needed to be addressed in 2021. Finally, Ms. Devlin indicated that the Authority satisfied its financial requirements in terms of its bank loan.

Mr. Thompson followed the auditor’s presentation with an explanation of the differences between the financials reported by the auditor and those provided by the Authority each month.

STAFF REPORTS:

Mr. Nester commented that staff reports were distributed to the NMWA Board along with other meeting documents. He asked if anyone had a question regarding the staff reports. There were none.

Mr. Larson referred to the flow metering study mentioned in the HRG report and noted that the initial data is pointing to 3 basins as high flow areas that will need further investigation. He stressed the importance of the flow metering effort in determining the future remediation work to be undertaken in the sewer system.

Mr. Thompson stated that the trend in the financials for 2022 projects two months of deficits and one month of surplus offsetting the deficits, coinciding with the quarterly reimbursement from West Norriton Township, and that a rate adjustment may be needed for 2023. He reviewed his previous email communication with the Board on a meeting with Fulton Bank and Bond Counsel where the possibility of a refinancing was discussed. Mr. Thompson indicated that further information will be provided after the Bank develops several refinancing scenarios. Finally, he reminded the Board that several years ago it had enacted a provision to reduce tapping fees under certain tax abatement situations and that two Ordinances passed by the Municipal Council in 2021 regarding redevelopment of property in deteriorated neighborhoods might satisfy that requirement.
